Searchlight

The **smarter tool** for better insight.

Would you like to measure claims spend and performance more frequently than regular management reporting? Would it assist your understanding to be able to customise, slice and view key items of data that are relevant to your business? Would you like to see an overview of your complete portfolio of work in one place?

Searchlight, our business intelligence tool, captures a wealth of claims data and cost analyses, so you can enjoy immediate and secure access to the information you need. Not to mention the guidance and experience of a law firm with a century of experience behind it.

Searchlight is just one of the smart tools available from BLM Innovations. It delivers a number of key benefits to those wanting better insight about their claims portfolio, by:

- Allowing the capture of a greater range of claims data to offer enhanced analysis of total claims spend
- Enabling a better understanding of the current claim portfolio and forecasting at both the executive and granular levels
- Delivering immediate and secure access to dashboards and flexible on-demand reports to monitor and measure indemnity spend at any point in the reporting cycle
- Giving clients the ability to build their own reports, and export for further analysis.

Additionally, Searchlight can provide a platform into which your organisation's data can be loaded for seamless integrated analysis.

Key features

- Access to a substantial data range including claims spend, reserves, caseloads, location, cause and injury analyses. All sliceable by data fields relevant to your needs
- Trackable and quantifiable data, capable of analysis
- Data segmentation enables the identification of claims spend patterns, enabling appropriate action to target claims inflation
- Daily refreshed live data access, viewable via a web interface. Unlike other software which restricts views to consolidated data, loaded at predefined intervals
- Easy to maintain and customise data, processed quickly to provide immediate results.

Smart new tools for experienced legal minds.

Now we can offer you the best of both worlds. The experience of an established law firm, and the smart solutions of BLM Innovations – our exclusive cutting-edge case management, communication and analytics tools.
